

ST-LC Duplex Metal Hybrid Adapter

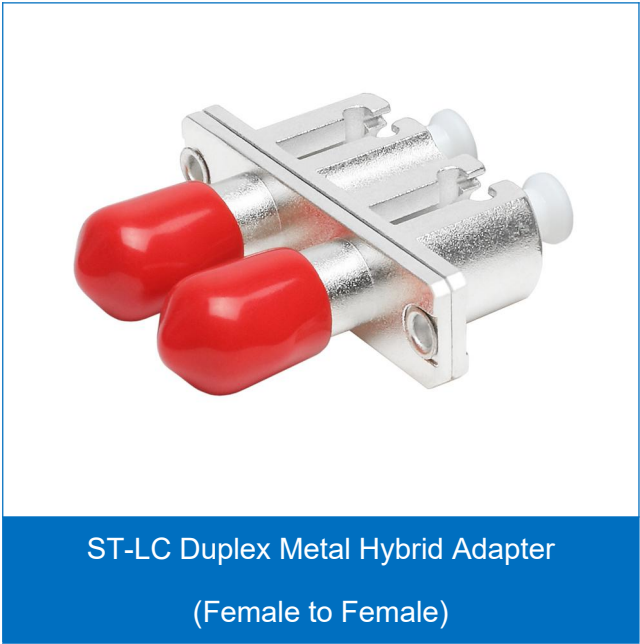

(Female to Female)

Description

This Adapter was different from ordinary adapter,the utility model is mainly used for connecting two ends with different inserting core diameters.

Features

- Precision connection with sleeve
- SM and MM connector can be used interchangeably
- Low insertion lose, High echo lose
- Good interchangeability and reliability
- Meet IEC and ROHS standards
- High precision of mechanical dimensions Accuracy

Application

- Telecom network
- CATV
- FTTX

Parameter

Product	ST-LC Duplex Metal Hybrid Adapter (Female to Female)
Insertion Loss(dB)	≤ 0.30
Repeatability(dB)	≤ 0.30
Interchangeability(dB)	≤ 0.30
Operating Temperature Range(℃)	-40℃～+75℃
Storage Temp Range(℃)	-40℃～+75℃
Casing Material	Zirconium dioxide ceramics
